

## THE AMERICAN PEOPLE ARE ON TO REID'S "BAIT AND SWITCH"

Harry Reid  
Unveils his "plan" to ram through  
"Health Care"—  
No Debate, no matter the cost.

Harry's nefarious plan is as follows:

- 1) Reid will bring HR 3590 to the Senate floor. HR3590 is a tax credit home buyer bill for veterans, this bill was passed by the House .  
<http://thomas.loc.gov/cgi-bin/bdquery/z?d111:H.R.3590:>
- 2) The Senate will vote for cloture (stop debate and move to a vote); 60 votes are needed—What Senator would vote against a benefit for veterans? Cloture will bring the bill to the Senate floor a vote.
- 3) Using procedural trickery, Reid will strip out the contents of the Veterans' bill and replace it with the some form of the Reid HealthCare Bill, which the public has not yet been able to adequately review.

The Senate will only need 51 votes to pass Reids Health Care bill for which he has at least the 51 votes needed. The Veterans will get nothing except higher taxes and less medical care and the American public will move one step closer to socialism with government controlled health care.

Please print and use the contact information on the next page. Please also forward this to EVERY person you know who cares about the future of their lives, and the lives of their children and grandchildren. Americans MUST take action and demand that those who claim to represent them, actually do.

When speaking with the Senators' office staff, be sure to let them know that is the Senator's vote on cloture on anything leading to a Health Care bill which you are opposed to and will judge them on, regardless of how they vote on the final bill. They must be persuaded against allowing Harry Reid to use procedures to force this bill through, against the will of the American people.

## Call These Senators Now!
